Established 1838
Incorporated 1892

DREER'S Quarterly Wholesale Price List.

January-March, 1897.

SEED DEPARTMENT.—This is in charge of trained experts, and whether your wants may be in Vegetable, Agricultural or Flower seeds, you may be sure to get only the choicest.

PLANT DEPARTMENT.—Our stock of decorative plants, such as Palms, Ferns, Pandanus, Ficus, Araucaria, etc., etc., is now very complete in a full line of sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well-grown, and will compare favorably with stock distributed by us in previous seasons.

Whenever possible, we solicit a personal inspection of our stock. Our nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York, and something of interest will always be seen.

The new ranges of glass erected in 1895 and 1896, covering 53,000 square feet each, (two of the houses being nearly one acre each under one roof) are certain to interest anyone having anything to do with a greenhouse. This, we believe, illustrates in a practical way, that we believe in home-grown plants.

Our Palm cultures are now undoubtedly the largest and most complete in the country; our stock of Kentias alone (the most popular and most desirable of all Palms,) on July 1st, consisted of one hundred and twenty-four thousand plants, from small seedlings in 2 inch pots, to specimens in 10 and 12 inch pots; other popular varieties being represented in the same proportion.

A time card of trains, with directions how to reach the nurseries, will be mailed to anyone applying.

LOW EXPRESS RATES ON PLANTS.—We are shipping by express lines to all parts of the country, plants packed in closed boxes at a reduction of 20 per cent. from regular rates of merchandise. Boxes weighing less than 100 pounds are charged at pound rates, minimum charge not less than 35 cents. For example: where the general rate is \$5.00 per 100 pounds, a box weighing 20 pounds will be carried for 80 cents. Prepaid 4 pound packages of seeds, plants, and bulbs are carried to California and all distant points for 30 cents each.

By our careful and thorough system of packing, we **Guarantee Safe Delivery** on Plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary.

Plants and other perishable goods, when sent in any other way, are solely at Purchaser's Risk.

TERMS OF BUSINESS.— Unknown correspondents desiring to open an account, will please furnish satisfactory reference, otherwise cash must accompany order.

 Remittances should be made by Post Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

 Perishable goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

CHANGE OF TERMS.—In order to equalize and to give the same time of credit on all purchases, we have decided to abolish our old system of credits in which all accounts, regardless of date of purchase, were due in January and July, and have decided to adopt a new system, as follows:

On and after January 1st, 1896, all bills will be due and payable Ninety (90) days after date of invoice.

 No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices.  In filling out your order, always give **Shipping Directions**, and write **Name and Address Distinctly**.

NON-WARRANTY.—We wish it to be distinctly understood, that although we continue to take all possible pains to supply only New, Genuine and unadulterated Seeds and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

Outside view of the New Range of Palm Houses, containing 53,000 square feet of glass, erected in 1895.

A similar block to this, also for Palms, was erected in 1896.

HENRY A. DREER,

Seed Store and Office, 714 Chestnut Street, Philadelphia, Pa.

Greenhouses and Nurseries, Riverton, N. J.

SPECIAL OFFER to Florists and Market Gardeners who are interested in either of our new publications—"Dreer's Vegetables Under Glass;" "Dreer's Open Air Vegetables;" "Dreer's Grasses and Clovers." We will give to purchasers of \$2.50 worth of seeds, one of either of the above books; to amount of \$5.00 worth, two of either of the above; and to amount of \$7.50, the full set of three. As these books contain only practical information, this is an exceptional offer.

NOVELTIES AND SPECIALTIES IN VEGETABLE SEEDS FOR 1897.

Our list of Novelties includes varieties of Vegetable and Flower Seeds of recent introduction, produced by growers and specialists in this country and abroad, and the descriptions given are mainly as received from the introducers. All are carefully tested in our trial grounds during the summer, and such as show an improvement on existing sorts are added to the general list.

LIMA WAX BEAN.

Named Lima Wax, as it has bright, glossy foliage and the blossom resembles the Dwarf Lima. The pods are very broad and flat and of excellent quality. The plant is branching and vigorous, pods are grown in the greatest profusion, often a single plant having from 50 or 60 or more pods. They require thin planting (two beans being sufficient for a hill) on very rich soil, and will run true.

The pods are the broadest of all Wax Bush Beans, color transparent glossy lemon wax, having the yellow waxy appearance very soon after the pods are formed. When picked will retain their bright, attractive appearance for a long time and do not become tough.

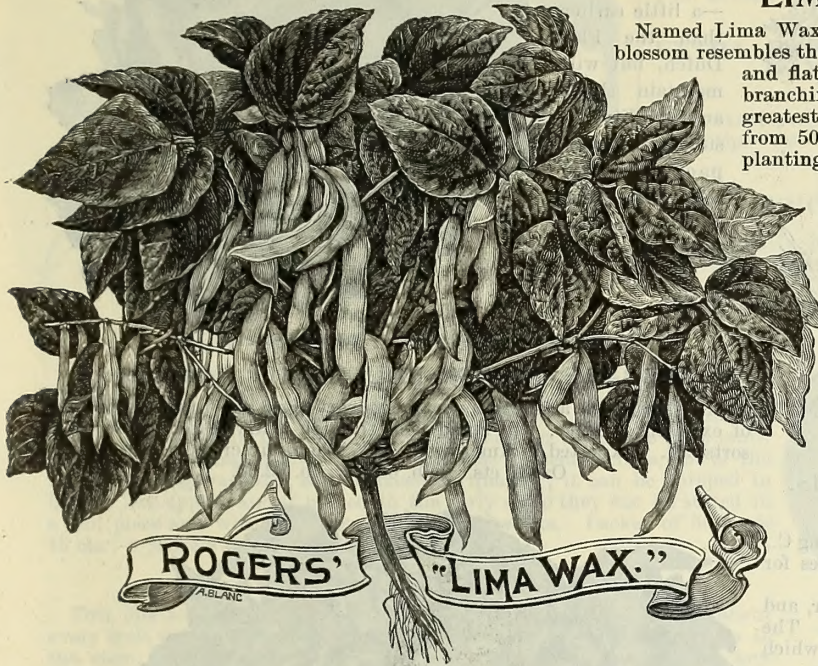

White seeded, most desirable for market gardeners' and canners' use.

Pint 30 cents; quart 60 cents.

VALENTINE WAX BEAN

An improved extra early Valentine Bean, with round wax pods. It is without exception the earliest Wax Bean, being even earlier than Refugee Wax. The pods are very meaty, and with so very little string that they may justly be called stringless. It is remarkably free from rust.

Qt. 25 cts.; peck \$1.25; bu. \$4.50.

Marvel of Paris Bean.

A splendid early Dwarf Snap Bean, of French origin, very vigorous, and of remarkably great and prolonged productiveness. Pods green, long and slender. Pt. 15 cts.; qt. 30 cts.

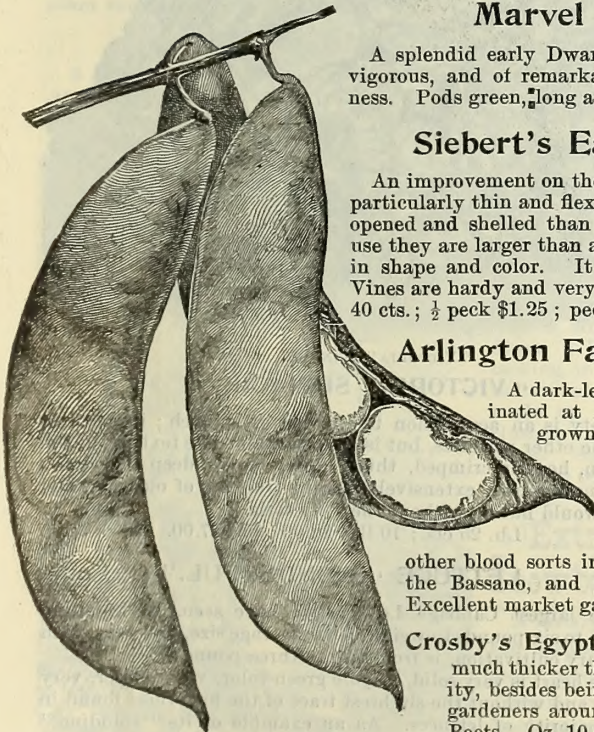

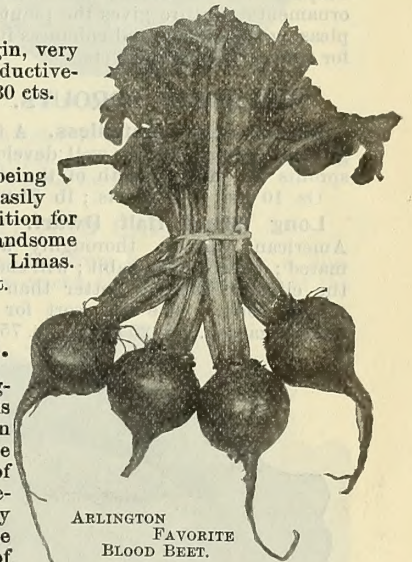

Siebert's Early Lima Bean.

An improvement on the Large Lima Bean, the pods being particularly thin and flexible, so that they are more easily opened and shelled than other beans. When in condition for use they are larger than any other variety, and very handsome in shape and color. It is the earliest of the large Limas. Vines are hardy and very productive. Pint 20 cts.; qt. 40 cts.; ½ peck \$1.25; peck \$2.00.

Arlington Favorite Blood Beet.

A dark-leaved early blood variety, originated at Arlington, Mass., where it is grown extensively for the Boston market. It follows the Eclipse closely in maturing, but of much darker color and superior in quality; perfectly round. It differs from the other blood sorts in that it has the sweetness of the Bassano, and yet a very deep blood color. Excellent market gardener's sort, also fine for forcing. Oz. 10c.; ¼ lb. 20c.; lb. 75c.

Crosby's Egyptian Beet. An improved strain of the Egyptian Beet. It is much thicker than the original strain, quite as early, of better color and quality, besides being smoother. This variety is extensively grown by the market gardeners around Philadelphia and Boston, and stands foremost among Blood Beets. Oz. 10 cts.; ¼ lb. 25 cts.; lb. 75 cts.; 10 lbs. \$6.00.

SIEBERT'S EARLY LIMA.

Extra Early Sugar Corn—White Cob Cory.

An improved variety of the Cory Corn, with uniformly white cobs. It is as early as the ordinary Cory, and preferred by many who object to the red cob sorts. We particularly noticed its productiveness among our trials, and its character throughout shows careful selection. Quart 15 cts.; ½ peck 40 cts.; peck 75 cts.; bu. \$2.75.

CELERY, ROSE-RIBBED PARIS.

Self-Blanching.

A sport of the Paris Golden Self-Blanching C., of which it possesses all the good qualities for which the latter has become world famed.

It has its beautiful golden yellow color, and differs from it only by the color of the ribs. The latter are of a very pretty shade of rose, which deepens as the season advances. This ornamental feature gives the plant a very pleasing appearance and enhances its value for the market. Oz. 75 cts.

BRUSSELS SPROUTS.

Dreer's Select Matchless. A free-growing sort producing well developed sprouts the entire length of the stem. Oz. 10 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. \$1.25.

Long Island Half Dwarf. An American variety, thoroughly acclimated; dwarf robust habit; will endure the climatic changes better than the foreign sorts. The best sort for the market garden. Oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.

CABBAGE LUPTON.

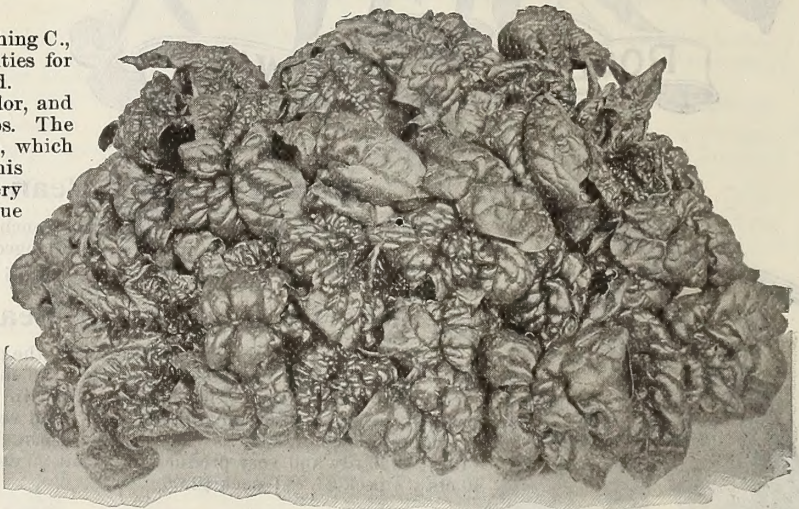

A new winter variety of excellent quality and distinct character—a little earlier than the Flat Dutch, but will maintain shape and solidity for storing; of compact growth, color dark green and very uniform head. Oz. 20c.; $\frac{1}{4}$ lb. 60c.; lb. \$2.00.

CABBAGE LUPTON.

CABBAGE, DANISH BALL HEAD (Hollander.)

This variety is a true shipper, grows very close and firm; white, and of excellent quality, will stand well through a dry season when other sorts fail. Exported to America in 1895 when our crops were a failure. Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00.

"VICTORIA" SPINACH.

"VICTORIA" SPINACH.

This variety is an acquisition to the list of spinach; it matures later than the other varieties, but is of remarkable fine texture, of the deepest green, heavily crimped, thick, fleshy leaves, deep red stem; it is now grown extensively by the truckers of our markets, who would not be without the "Victoria."

Lb. 25 cts.; 10 lbs. \$2.00; bu. \$7.00.

LETTUCE "WONDERFUL."

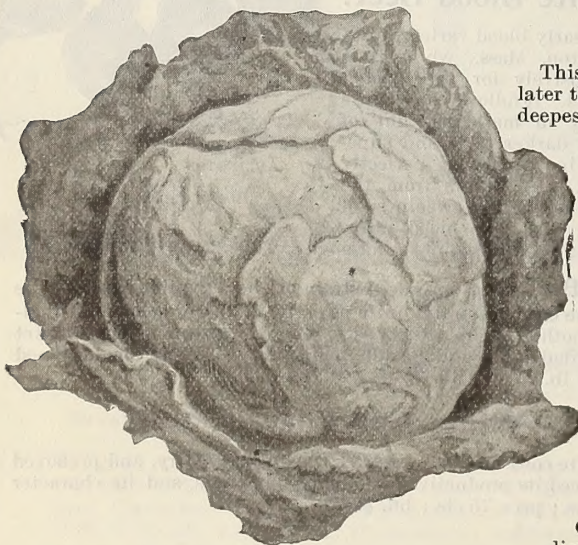

The largest Cabbage Lettuce we have seen, having been grown to six pounds in weight; the average size, however, with ordinary cultivation, is from two to three pounds.

The heart is very solid, of pale green color, very tender, very crisp, and without the slightest trace of the bitterness found in the majority of lettuces. As an example of its "standing" properties, perfect lettuces were cut from the same bed, for upwards of seven weeks, during the past hot and dry season.

Pkt. 15 cts.; 2 for 25 cts.

DEACON.

One of the best summer cabbage sorts; very crisp, large and light in color. Oz. 15 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. \$1.25.

LETTUCE "WONDERFUL."

RADISH, "CINCINNATI MARKET."

NEW TOMATO "HONOR BRIGHT."

A peculiar bright red variety, which appeared as a single "sport" plant in a large field of Stone Tomato in 1894, but is decidedly different. Its chief peculiarities are its solidity, changes of color the fruit undergoes during development, first it is *light green*, then an attractive *waxy white*, then *lemon* changing to *red*; it is, nevertheless its peculiarities, one of the longest keeping varieties, and of excellent quality; it can be shipped in barrels like apples, and if picked in the early stage they can be stored in a cool place and will keep from one to four weeks. Packet of 50 seeds 15 cts.; 2 packets for 25 cts.; 10 for \$1.00.

NEW IMPERIAL TOMATO.

This fine tomato excels in earliness, size, perfect symmetry, and about every trait that goes to make up a first-class tomato; it ripens well up to the stem, is very thick-meated and is claimed to be earlier than any other variety. Beautiful large pink. Per pkt. 10 cts.; oz. 25 cts.

TOMATO, NEW YORK (Thorburn.)

A new and distinct variety, discovered five years ago in the field of the Acme Tomato. After four years of careful culture it has retained its distinctive features. It differs in form from all other Tomatoes, being

hexagon-shaped and unusually deep. In color it is deep red, with a purplish tinge, very solid. Is *extra early* in ripening. It is excellently adapted for canning purposes. Per pkt. 10 cts.; 2 pkts. for 25 cts.

TOMATOES, "BRIGHT AND EARLY."

Is nearly round, with smooth surface, free from irregularities. A fine, deep red. The skin is firm and free from cracks, the flesh solid and of the finest flavor. The average size is slightly below medium. But whatever is lacking in the size of the individual fruit is more than made up in the immense clusters in which they are borne. Sold in pkts. only. Price 10 cents. 3 for 25 cts.

Extra Early Snowball Turnip.

A variety of sterling merit, the earliest and most perfectly formed round white Turnip; very short top and single tap root. Flesh snowy white, solid and mild in flavor. This variety is one of the best for stock feeding, as it is entirely free from the sharp taste of turnips. Oz. 10 cts.; $\frac{1}{4}$ lb. 20 cts.; lb. 60c.

CINCINNATI MARKET RADISH.

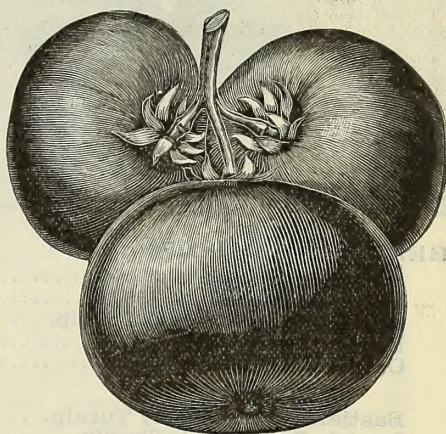

A new extra early variety of the long scarlet type, a clear bright red, smooth and transparent, very early. The tops are so very small that the Radishes may stand touching each other in the rows. They grow perfectly straight and smooth, and from six to seven inches in length. They are very attractive, of bright scarlet glossy thin skin, very crisp flesh, and brittle, and of delightful flavor. Oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; lb. 80 cts.

EXTRA EARLY WHITE TIPPED SCARLET FORCING RADISH.

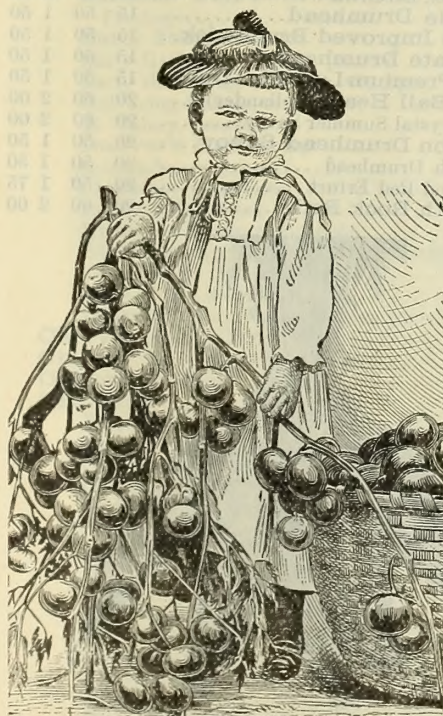

An extra early short top variety, clear bright red, with white tip. Oz. 10 cts.; $\frac{1}{4}$ lb. 30 cts.; lb. \$1.00.

WHITE DELICACY RADISH.

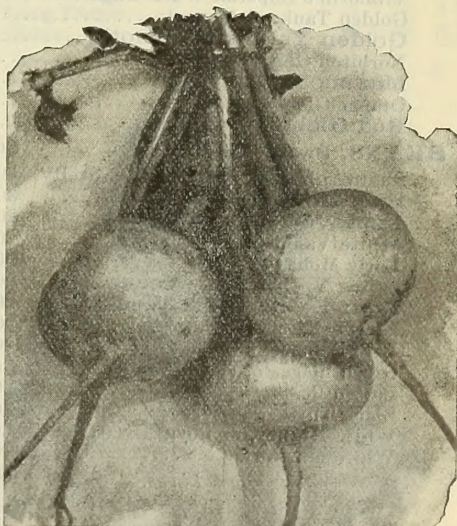

A very early, half-long, snow-white variety of the Strasburg type; quite smooth, crisp and tender. Oz. 15 cts.; $\frac{1}{4}$ lb. 40 cts.

"HONOR BRIGHT" TOMATO.

"BRIGHT AND EARLY" TOMATO.

TURNIP "SNOWBALL."

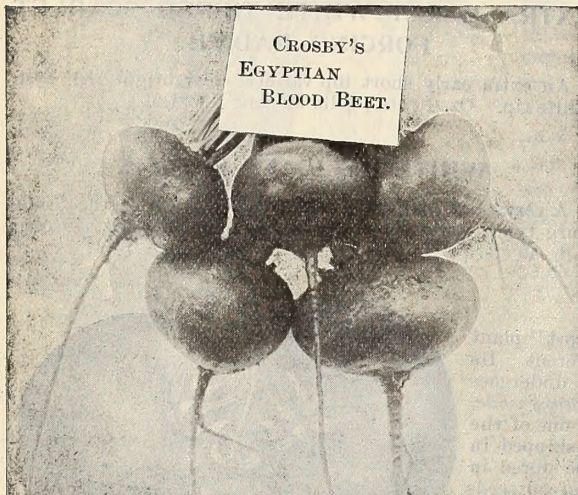

General List of Vegetable Seeds.

Artichoke, Large Green Globe, oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.

FLOWER SEEDS.

We give close attention to the Flower Seed department of our business, which is probably the largest in quantity and variety in this country.

Our constant aim is to procure the very best strains obtainable, both of home and foreign growth, and we spare no pains or expense with this object in view. We call special attention to our choice strains of Asters, Cineraria, Carnations, Calceolaria, Cyclamen, Gloxinia, Pansy, Petunia, Primula, and Verbena, which are acknowledged by leading growers to be superior in all respects. Our trade packets contain a liberal supply; where smaller quantities are wanted, buyers can select from retail catalogue at a discount of one-third.

SEMPLE'S BRANCHING ASTER—DREER'S SELECT STOCK.

ASTERS—American Grown.

The following are of American origin, and the seed we offer has been saved from extra choice strains. As a florist flower they fill a long felt want, being the latest Aster to flower and come in at a time when other flowers are scarce.

Aster, Vick's Branching White, flowers pure white, of good size, borne on long stems with broad, long petals. Trade pkt. 40 cts.; oz. \$2.00.

Asters, Semple's Branching, plants of branching habit, producing on long stems flowers of perfect form, from 4 to 6 inches in diameter and equal to the early *Chrysanthemums*, which they much resemble.

Aquatic Department.

We have the largest and best equipped Aquatic Department in the country, and are prepared to supply strong plants of the new and rare as well as the standard sorts of Water Lilies, etc. Florists would do well to plant a few of the leading kinds, they being one of the best "ads." we know of; people go miles to see the Water Lilies, that would not be attracted by any other class of plants.

Full descriptions and cultural directions will be found on pages 92, and 96 to 103 of our Retail Catalogue.

Plants for Florists.

Our measurements of plants where given, as in the case of Araucarias, Palms, etc., etc., means the height of the plant from the top of the pot to the top of the plant in its natural position. We make this explanation of our way of measuring, as many growers contend that the proper measurement is from the bottom of the pot to the tip of the longest leaf, and make their offers in that way.

ALLAMANDA WILLIAMSII.

Allamanda Williamsii.

This handsome variety is entirely distinct from all others, being quite dwarf and in no way resembling a climber, but forming a compact bush with trusses of bloom at every point, and having from two to four expanded blooms on each extremity at the same time and buds innumerable. It continues flowering the whole summer, and, with proper management, in the winter also. The flowers are from $3\frac{1}{2}$ to $4\frac{1}{2}$ inches in diameter, of a very rich yet delicate tint of yellow, and are deliciously scented. See cut. 3 inch pots, 15 cts. each; \$1.50 per dozen.

Amaryllis.

	Per doz.	Per 100
Atamasco (<i>Zephyranthes</i>) Alba.....	\$ 50	\$2 50
Fornosissima (<i>Jacobeana Lily</i>)	50	4 00
Johnsoni, scarlet, striped white. We have a large stock of this handsome Amaryllis...	2 00	15 00
Vittata, new Seedlings mixed.....	3 50	

Ampelopsis Veitchii.

We have a large stock of this popular plant, which is always in strong demand; one year old plants in 3 inch pots (pot-grown) \$1.00 per doz.; \$7.00 per 100; \$60.00 per 1000.

Anemone Japonica (Honorine Jobert)

Japonica Alba. Pure white.
" Rosea. Rose color.
" Whirlwind. New semi-double white.
Strong plants. \$1.25 per doz; \$10.00 per 100.

Anthemis Tinctoria.

A hardy golden Marguerite, producing single yellow flowers during the entire summer; very useful for cutting purposes and perfectly hardy.

2 $\frac{1}{2}$ inch pots, 60 cts. per doz.; \$5.00 per 100.

Anthemis Tinctoria Kelwayii.

A much improved form of the above with much larger flowers.

2 $\frac{1}{2}$ inch pots, 60 cts. per doz.; \$5.00 per 100.

Aristolochia Sipho.

(*Dutchman's Pipe Vine.*)

We offer an extra fine stock of this most useful hardy climber in extra strong long vines. \$4.00 per doz.; \$30.00 per 100.

ABUTILON SOUVENIR DE BONN.

Abutilons.

Souvenir de Bonn. The most beautiful variegated Abutilon that has yet been introduced; foliage deep green with silvery white edge; not unlike the silver leaved Geraniums.

Golden Fleece. The very best of all the yellow varieties, wonderfully prolific.

Arthur Belsham. Red, shaded gold.

Boule de Neige. Finest pure white.

Eclipse. Trailing variegated basket variety.

Mrs. John Laing. Purplish rose.

Royal Scarlet. Rich shining scarlet.

Roseaflora. Pretty pinkish rose.

Splendens. Free flowering; bright red.

Striata Splendida. Bright orange color, striped with crimson.

Thompsoni Plena. Variegated foliage, double orange flowers.

2 $\frac{1}{2}$ inch pots, 60 cts. per doz.; \$5.00 per 100.

Achillea Serrata Plena.

(*The Pearl.*)

A decided improvement over the old double white Achillea, and most useful plant for summer cut flowers; flowers pure white, perfectly hardy.

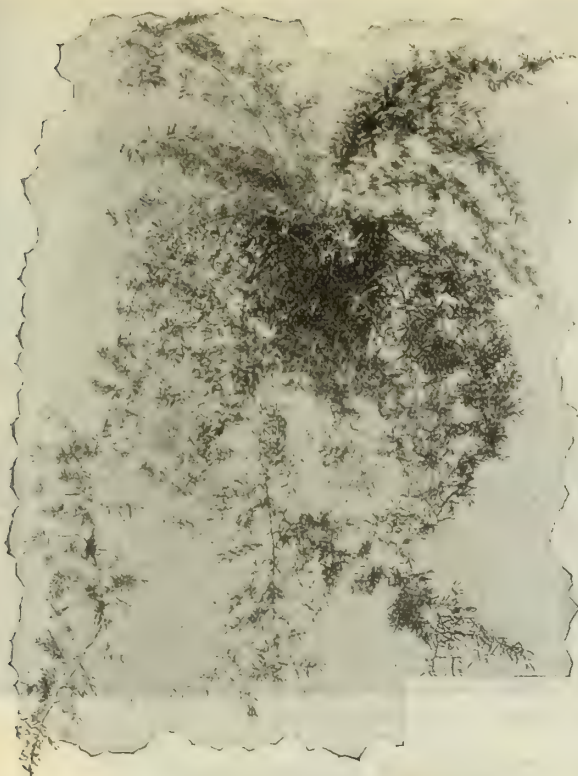

Field grown clumps, \$1.25 per dozen; \$10.00 per 100.

Akebia Quinata.

One of the most hardy climbing plants, bearing in early spring a profusion of fragrant, violet brown flowers.

2 $\frac{1}{2}$ inch pots, 75 cts. per doz.; \$5 per 100.

4	"	"	1.25	"	10.00	"
5	"	"	2.00	"	15.00	"

ASPARAGUS SPRENGERI.

Asparagus Sprengeri.

A most desirable new species, especially useful to grow as a pot plant for decorative purposes or for planting in suspended baskets; the fronds are frequently 4 feet long, are of a rich shade of green and most useful for cutting, retaining their freshness after being cut for weeks. It will make an excellent house plant, as it withstands dry atmosphere, and will succeed in almost any position.

We consider this a first-class plant in every way, and having succeeded in growing a large stock, we are enabled to offer it at a very low price.

Extra strong plants in 4 inch pots, 35 cts. each; \$4.00 per doz.; \$30.00 per 100.

Fine strong 3 inch pots, 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Good young stock, in 2 inch pots, \$1.25 per doz.; \$10.00 per 100.

ARDISIA CRISPA.

ARAUCARIA EXCELSA.

Araucaria Excelsa.

(Norfolk Island Pine.)

We offer a beautiful lot of this handsome decorative plant, in 6 inch pots, 15 to 18 inches high, 3 to 4 tiers, \$1.50 each. Also a limited stock of young plants, in 4 inch pots, about 6 inches high, at 60 cts. each.

Ardisia Crispa.

Similar to Ardisia Crenulata in every way, except that the fruit is much larger and of a darker, richer color, and more prolific.

The plants we offer are in elegant condition and should all fruit the coming season, and will be found profitable to grow on—the supply of plants in fruit at the holidays never being equal to the demand.

3 inch pots, \$1.25 per doz.; \$10.00 per 100.

4 " " 3.50 " " 25.00 " "

Asparagus Plumosus Nanus.

A limited stock of this useful plant.

2 inch pots, \$1.25 per doz.; \$10.00 per 100.

3 " " 2.00 " " 15.00 " "

ASPARAGUS PLUMOSUS NANUS.

View of House of Azaleas, 252 x 25 feet. From a Photograph.

AZALEAS, For Easter Forcing.

We are carrying in stock an immense quantity of Azaleas for Easter forcing; the plants are in good condition and finely set with buds; the varieties we offer are only the best commercial sorts.

As these plants can be more safely shipped when in buds, we wish to impress the importance of early orders. We will not be responsible for injuries arising from late shipments when the buds are developed.

	Size in diam.	Per doz.	Per 100.
5 inch pots, nice bushy crowns	10 to 12	\$5.00	\$40.00
5 " " " " " "	12 to 13	6.00	50.00
6 " " " " " "	12 to 15	9.00	70.00

Also, a fine lot of specimen plants at \$2.00, \$2.50 and \$3.00 each.

Tuberous-Rooted Begonias.

The strain of Tuberous-Rooted Begonias we offer is too well known to require lengthy description, suffice it to say that we have used the same care with this as in the previous seasons, to select only such varieties as are adapted to our climate and certain to give satisfactory results. The bulbs are of good size, well ripened and first-class in every respect.

Note the reduction in prices, which are as low as is consistent with good quality; the retail florist who is growing a few hundred bulbs for his spring trade, to sell over the counter in bloom, will find many of the cheap indifferent strains now offered dear at any price. We offer but one quality, and that is the best.

Single Flowering, Scarlet, Orange, Crimson, Pink, White, Yellow. \$3.00 per 100, \$25.00 per 1000.

Single Flowering. All colors mixed. 50 cts. per doz., \$2.50 per 100, \$22.50 per 1000.

Double Flowering, Scarlet, Pink, White, Yellow. \$1.50 per doz., \$10.00 per 100, \$95.00 per 1000.

Double Flowering. All colors mixed. \$1.25 per doz., \$9.00 per 100, \$80.00 per 1000.

TUBEROUS-ROOTED BEGONIAS.

New Large Flowering Dwarf French Cannas.

Grand New Orchid-Flowered CANNAS Austria and Italia

New
Canna
ITALIA.

Being an entirely new race of Cannas and altogether distinct from anything introduced heretofore, they have been very appropriately called "Orchid-flowered Cannas."

Both varieties have flowers of immense size, frequently measuring six inches across; the colors are distinct and pleasing and the flowers are produced in the greatest profusion. They have been described by the introducers as growing 9 feet high, but in our own grounds under liberal cultivation, they attained a height of about 6 feet.

Italia is of a bright orange scarlet with a very broad golden yellow border; the flowers, which are produced on massive stems about 16 inches long, are set well above the foliage; the foliage is large and heavy similar to that of the *Musa Ensete*. 75 cents each; \$9.00 per dozen.

Austria is a counterpart of *Italia* in every way, except in the color of its flowers, which are of a pure canary color, with but a few traces of small reddish brown spots in the centre of the two inside petals. 60 cents each; \$6.00 per dozen.

New Crimson Bedding Canna.—BEAUTE POITEVINE.

Out of over 150 varieties of Cannas grown by us the past season this variety stands pre-eminent in its class. It is of a bright rich crimson color, with erect flower spikes, growing about the same height as *Chas. Henderson*, and is an ideal Canna for bedding. It is constitutionally hardy, having stood the severe drouth better than any other variety, flowers standing the heat and intense rays of the sun without the slightest injury. It comes into bloom very early in the season, blooms continuously, and we have no hesitation in recommending it as an exceptionally good variety and as a brilliant bedder. Price, 30 cts. each; \$3.00 per doz.; \$20.00 per 100.

New Cannas of Special Merit and Introductions for 1897.

We are Sole Agents for the United States for Mr. Crozy, the prominent French specialist in Cannas. A special list of his introductions of this season will be issued early in March and will be mailed to all applicants.

The following list is a selection of the very finest varieties, introductions of the most prominent growers. All will be found decided acquisitions to our already long list of Cannas, and after careful trials made on our own grounds during the past Summer, we have no hesitancy in recommending every one of them.

Ami P. G. Pezeux. Flowers of good size, of a brilliant pomegranate-red color; foliage green, heavy. 3½ feet. 50 cts.

Aurore. Entirely distinct; orange salmon, with flowers of large size and large, heavy trusses; foliage of a rich green. 4 feet. 30 cts.

Barrone de Poilly. Very large, orange salmon; flowers of good form; foliage green. 3 feet. 50 cts.

Baron M. de Hirsch. Brilliant carmine, shaded purple, with small yellow border; foliage green. 3 feet. 50 cts.

Chas. Paul. Flowers large, generally with five large round petals, bright rose, passing into cloudy salmon; metallic purple foliage. 3½ feet. 75 cts.

Constellation. Bright golden yellow, spotted with crimson; foliage green. 3½ feet. 75 cts.

Czar Alexander III. Large, brilliant carmine flowers, produced in heavy spikes; foliage green. 3½ feet. 50 cts.

Francois Billard. Large flowers, of a rich crimson, with dark shadings, producing large, compact trusses well above the foliage. 4 feet. 30 cts.

Francois Barre. Large, canary yellow, with faint spots of crimson; green foliage. 3½ feet. 75 cts.

Franz Buchner. Deep orange suffused with scarlet, with a delicate wavy fringe around the edge of the petals; foliage green. 3½ feet. 30 cts.

Furst Bismarck. Intense rich crimson flowers of large size; the petals, which are shell-like and very broad, are of great substance, forming a large round flower; habit of plant compact. 3½ feet. 50 cts.

Graf Oswald de Kerchove. Intense rich orange scarlet; very bright bronzy green foliage. 4 feet. 50 cts.

Hortense Barbereau. An exceptionally good bright cherry red, with large heavy trusses of good-sized flowers; foliage green; a uniform, compact grower. 3½ feet. 75 cts.

CANNAS.—New Varieties of Special Merit and Introductions for 1897.—Cont.

Leonard Lille. Flowers of fair size, of a distinct shade of orange, with faint yellow edge; glossy bronze foliage. 50 cts.

Leon Pepin Lehalleur. A most excellent carmine red, with large round flowers; a strong grower, of good habit. 75 cts.

Madagascar. An entirely distinct variety, with large flowers, with well-rounded petals, of an ochre yellow, mottled carmine. 75 cts.

Mme. Pichon. Large lemon-colored flowers, with red stripes in centre of petals; distinct; foliage green. 3 feet. 50 cts.

Mlle. Berat. A most distinct and novel variety, being the nearest approach to a pink yet introduced; it is of a very soft shade of rosy carmine and is very pleasing and unique; foliage green. 3½ feet. 75 cts.

M. Schlageter. Bright orange scarlet, lower petals slightly edged with yellow. 30 cts.

Paul Lorenz. One of the dwarfest varieties in the collection; flowers of good size, rich blood red, shaded amaranth. 3½ feet. 30 cts.

Paul Meylan. A beautiful shade of orange red, with golden edge, there being just sufficient of this yellow border to intensify the orange. foliage soft green. 3½ feet. 75 cts.

Prof. Dr. von Ahles. Large capucine red flowers, shaded purple; bronzy red foliage. 4 feet. 75 cts.

Papa Canna. Considered by many to be the finest yet introduced; color pure red; habit of plant graceful, with very light green foliage. 3 feet. 35 cts. each.

Roi de Rouges. M. Crozy calls this the "King of the Reds," and it certainly is a grand variety; the flowers are of good size, with heavy petals, and are produced freely on stout, thickly-set stems; foliage green; habit compact, not exceeding 3 feet. 75 cts.

Robert Owen. A medium-sized flower, quite distinct in color, petals being of a light canary yellow, with lower petals irregularly striped and spotted red. 50 cts.

Souv. de Mme. Crozy. Large garnet red flowers, with broad border and large centre of a brilliant yellow; rich green foliage. 4 feet. 50 cts.

Souv. de Jean Chaure.

Very fine flowers, of a brilliant scarlet, overlaid with a brilliant sheen of purple; foliage green. 3½ feet. 75 cts.

Souv. de President Carnot.

A distinct bronzy foliaged variety, with very large flowers of a rich vermilion scarlet. 30 cts.

Souv. de Madelaine. A pretty variety, with good-sized cochineal red flowers, shaded orange; foliage bronzy red. 4 feet. 75 cts.

Senora Delia Matte. Orange red, marked and edged with canary yellow; distinct; foliage green. 50 cts.

Sir Trevor Lawrence. Large round flowers, carmine rose, with yellow border; foliage green. 4 feet. 75 cents.

Vice-President Luizet. Will make an excellent variety for massing; rich cherry red, with carmine reflex; produced in large, compact spikes; foliage green. 3½ feet. 50 cts.

CANNA AUSTRIA.

SPECIAL OFFER—One each of the 35 varieties of Special Merit, including Austria, Italia, and Beaute Poitevine, for \$15.00.

Our Standard Dozen of Twelve Well Tried Varieties.

The collection offered below consists entirely of standard well-tried varieties, nearly all of them being introductions of recent years and have been tested under all conditions. We can recommend these for all purposes, especially for massing in large quantities. Our large stock enables us to offer them at a very low price.

Admiral Avellan. We consider this the best of all the dark-leaved varieties. The flowers, while not as large as some of the latest introductions, are of good size, with heavy, strong petals which open out evenly, forming a clean, pretty flower; these are arranged sufficiently far apart on the stems to show up each individual flower; it is of a rich orange-scarlet color, overlaid with salmon in such a manner as to give the whole a peculiarly rich, luminous appearance. The habit of the plant we consider ahead of all the dark foliage varieties, being erect, growing about 5 feet high, and always forming fine, symmetrical plants. There is a clean appearance about this variety difficult to describe, different from all other dark-foliage sorts. \$4.00 per 100.

Ami Pichon. This may be called an improvement on Explorateur Crampel, to which it is similar in style of flower and color, though brighter in its markings than that variety. The flowers, which are of a very large size, are of a bright crimson with very deep crimson markings; the habit of the plant is strong, of symmetrical growth, about 5 feet high, with rich, deep green foliage. \$4.00 per 100.

Alphonse Bouvier. Of the many crimson varieties yet introduced, this is, all points considered, probably the grandest and most effective. It is a remarkably luxuriant grower, and attains a height of from 6 to 7 feet in rich soil. In color it is a rich, brilliant crimson, almost approaching scarlet when it first opens, changing to a deep, dazzling crimson as the flowers fully develop. \$4.00 per 100.

Charles Henderson. A grand variety, of a fine crimson color, that has become very popular. While it is not quite as rich as Alphonse Bouvier, its habit of growth is much more compact, rarely exceeding 3½ feet in height, which makes it a desirable companion to such varieties as Florence Vaughan and Madame Crozy. \$4.00 per 100.

Egandale. A most excellent variety, with bronzy foliage and soft currant-red flowers which are thrown well above the foliage; one of the best of its type. 4 feet. \$5.00 per 100.

F. Neuvesel. This is a most excellent variety, of a soft, pleasing shade of carmine; of good size and elegant habit; the foliage is dark green, with bronzy markings; it is of strong, robust habit, growing 4½ feet high. \$5.00 per 100.

Florence Vaughan. Undoubtedly one of the finest yellow spotted varieties; in color it is of a bright rich golden yellow, spotted with bright red; the flowers, which are of the largest size, of great substance and of perfect form, are borne in large heads and in the greatest profusion; the foliage is massive and of a rich green color; the plants rarely exceed 3 feet. \$8.00 per 100.

Madame Crozy. The flowers of this well-known and popular variety are of a dazzling crimson scarlet, bordered with golden yellow. The plant is of vigorous growth, yet dwarf in habit, rarely exceeding 4 feet in height. Foliage bright green and very massive. The flowers are produced on large branching stems which are closely set with bloom. \$4.00 per 100.

Standard Twelve Well Tried Varieties.—Cont'd.

Paul Marquant. One of the most pleasing on account of its large size and entirely distinct color. The flowers stand out from the spike separately in such a manner as to attract special attention. Its color is frequently compared in softness to an Orchid, is of a bright salmon scarlet, passing to a rosy carmine with a peculiar silver lustre which lights up the salmon very brightly. 3 to 3½ feet. \$4.00 per 100.

Queen Charlotte. Considered by many the finest of all the gilt-edged varieties. The plant attains a height of about three feet and is furnished with heavy bluish-green foliage; the enormous flower-spikes, towering grandly above the foliage, bear a beautiful bouquet of large flowers of perfect form, with petals of a rich scarlet crimson, broadly banded with bright canary yellow. \$6.00 per 100.

Rose Unique. A near approach to a rose color, of a remarkably vigorous but dwarf growth, attaining a height of 3½ feet. \$4.00 per 100.

Souvenir de Antoine Crozy. This is a perfect gem, and, in our estimation, the finest gilt-edged variety yet introduced; the flowers are large, with well-rounded petals, which are of intense scarlet crimson, rich and dazzling, and are bordered with a broad rich golden yellow border; in habit the plant is all that could be desired, being of strong, vigorous, but dwarf habit, forming symmetrical, compact plants about 3 feet high. \$8.00 per 100.

General List of Dwarf French Cannas.

	Per 100		Per 100
Baronne de Sandrans. Yellow spotted crimson	\$ 4 00	Gloire de Lyonnaise. Yellow, mottled red	\$ 6 00
Columbia. A variety of American origin, and a perfect gem; it has an entirely distinct habit of growth, and the character of the flower is equally distinct; color rich cardinal red. The most peculiar characteristic of the plant is its branching habit, sometimes having three or four trusses of bloom on the same spike, all open at the same time, producing a mass of blooms at an even height	15 00	J. C. Vaughan. Large; deep vermillion orange; large truss; foliage bronzy purple. 4½ feet	4 00
Comte de Bouchaud. Rich golden yellow, spotted bright red	8 00	Kaiser Wilhelm II. Very free flowering; medium size flowers of bright red	4 00
C. Reneau. Bronzy purple foliage; flowers of a rich rosy carmine	4 00	Milet Fils. Large crimson shaded amaranth; foliage green. 4½ feet	4 00
Director Roelz. Carmine rose, of fair size	4 00	Mrs. Sarah Hill. Flowers of a rich carmine, of good size; foliage green. 3½ feet high	4 00
Explorateur Crampel. Flowers of good size, borne in large heads and thrown well above the foliage. Its color is a bright orange crimson, with deep crimson markings	4 00	M. Forgeot. Orange, with light yellow edge; distinct	5 00
Edward Mieg. Rich vermillion scarlet; a strong, robust grower, with dark green foliage, attaining a height of 3½ feet	4 00	Maurice Mussy. Rich satiny vermillion scarlet, of large size, with broad, rounded petals of good substance	4 00
Eldorado. Flower not a perfectly pure yellow, but so nearly so as to show no trace of color at a short distance. It is very finely speckled with the lightest red, which is apparent only upon close examination. 3½ feet high	15 00	Meteor. Free flowering, orange scarlet, of good size	4 00
F. R. Pierson. Glowing scarlet flowers, the centre of each flower touched with yellow; a compact grower and a free bloomer	15 00	Paul Bruant. Intense orange scarlet, with peculiar satiny surface; foliage dark green. 4½ feet	4 00
Engineer Alphonse. Bright reddish carmine with bronzy foliage. 4 feet	4 00	Paul Sigrist. Rich dazzling crimson with a broad golden yellow border	4 00
Gen. de Miribel. A unique shade of apricot-tinted salmon, very distinct. 4 feet	4 00	Paolo Raedelli. Richest dazzling crimson, with a narrow but very rich golden yellow border	6 00
Geoffrey St. Hillaire. Large flowers of a rich scarlet overlaid with orange; bronzy purple foliage. 4½ feet	4 00	Princess Lusignani. Bright, glowing orange, scarlet-shaded crimson; foliage green. 3 feet	4 00
		Professor Gerard. Flowers of a rich crimson scarlet; foliage broad and massive, of a dark green color. 4½ feet	4 00
		Pres. Chandon. Ochre yellow, with dark spots	5 00
		Sophie Buchner. Large, massive, Musa-like foliage of a deep green color, which in rich soil will attain a height of 8 feet or more; the flowers are of a light scarlet overlaid with orange, and are produced in bold, heavy spikes	4 00
		Trocadero. Bright crimson scarlet overlaid with orange; foliage green. 5 feet	4 00
		Unique. Bright orange scarlet, of medium size; very fine. 3 feet	4 00

Bronze Foliaged Canna, Bassett's Red. This is one of the old type of Canna Indica, it is of strong robust habit, attaining a height of about 5 feet, with the most intense bronzy-red foliage that has yet come to our notice, the flowers, like all of this type, are small, but where foliage effect is wanted this is a perfect gem, especially when used in large masses. \$4.00 per 100.

A house of VICTOR CARNATION.

Reproduced from a photograph.

Three Grand New Carnations.

FLORA HILL. This grand Carnation has made a sensation wherever shown; it is the largest white ever exhibited; grass a little heavier than that of Alaska, stems long and moderately stiff, calyx strong, very free in bloom, perfecting grand flowers immediately after bringing in from the field and flowering continuously of the easiest management. We do not know of a single fault that it has.

Rooted cuttings ready about March 1st. \$12.00 per 100.

MRS. McBURNEY. One of the largest carnations yet produced, stems very stiff, will average 18 inches in height; foliage of medium weight, freely produced; very free in bloom, calyx extra strong. Color soft clear salmon; perfectly healthy, never rusts.

Rooted cuttings ready about March 1st. \$12.00 per 100.

VICTOR. This is a sport from Day-break and has been thoroughly tested for the past three years. In color it is clear brilliant pink and improves under artificial light. A strong free-grower, flowers large, with strong stems. A fine keeper.

Rooted cuttings ready March 15th. \$10.00 per 100.

Caryopteris

Mastacanthus

A handsome, half-hardy perennial plant recently introduced from China. It is of a vigorous growth, producing flowers in great profusion the whole length of its branches, even young plants in small pots flowering freely. The color is a rich lavender, or sky blue. A valuable plant either for bedding or pot culture, blooming continuously from mid-summer until cut by frost in the field 75 cts. per dozen; \$6.00 per 100.

CARYOPTERIS MASTACANTHUS.

CHRYSANTHEMUMS.

Two Fine New Varieties.

GOLDEN TROPHY. A fine yellow variety, which was awarded a Certificate by the National Chrysanthemum Society, and a valuable addition to the second early sorts. It grows about 2 feet high, with foliage of great beauty and nicely carried up to the flower; blooms large, incurved and very full; in color a fine soft yellow. Ready March 1st.

50 cts. each; \$5.00 per doz.; \$35.00 per 100.

MRS. COLONEL GOODMAN. One of the best of all the new Chrysanthemums for cut flowers or as a pot plant. It was awarded a Certificate of Merit for commercial purposes by the Chrysanthemum Society of America, at Philadelphia, November 7th, 1896—an honor clearly earned by its wonderful lasting qualities. It remains in splendid condition from November 7th until the 22nd, clearly proving a lasting quality, not equalled by any other Chrysanthemum. The plant is of fine habit, specimens having been grown in 10-inch pots with more than 100 large flowers. The foliage is all that could be desired, carried on erect stems, and well up to the flowers. The flowers are of splendid form, perfectly globular, measuring from 16½ to 18 inches in circumference; petals regular, cup-shaped, of great substance; the color, strange to say, may be had as desired. Grown in a temperature of 50°, the flowers are a fine pink; at 60°, a blush white; at 65°, a fine white—thereby enabling the grower to have them whatever shade he may desire.

50 cts. each; \$5.00 per doz.; \$35.00 per 100.

Mrs. Perrin. Beautiful glistening pink; a most desirable shade	6 00	Wm. Holmes. A fine crimson	4 00
		Yellow Queen. Extra early, large, clear yellow	4 00

Hardy Pompone Chrysanthemums.

These have been almost entirely lost sight of during recent years and have received but little attention, but have in the past season or two been considerably in demand again for out-door planting. Believing that these hardy varieties will again become popular, to at least some extent, the collection offered will be found to contain only the most desirable sorts.

Bob. Crimson Brown.
Blushing Bride. Fine soft pink.
Canary. Pale yellow, bushy habit.
Fred. Peele. Deep crimson, tipped gold.
Golden Fleece. Clear yellow.
Golden Pheasant. Rich golden yellow, fine form.
Gerbe d'Or. Golden yellow.
Eagle d'Or. Fine yellow.
Julia Lagravere. Very fine crimson.
Mr. Schmidt. Yellow, tipped with crimson.
Mlle. Elise Dordan. Rose-pink, globular flower.
Nellie Rainford. Buff. **President.** Rosy carmine.

Coreopsis Lanceolata.

A hardy perennial that should find its way into every garden. The flowers are a clear bright golden yellow and certain to attract attention. It flowers profusely, is perfectly hardy and thrives in almost any situation. One of the best of the perennials, and invaluable for summer cut flowers. Strong one year old clumps, \$1.00 per doz.; \$6.00 per 100. 2½ inch pots, 60 cts. per dozen; \$4.00 per 100.

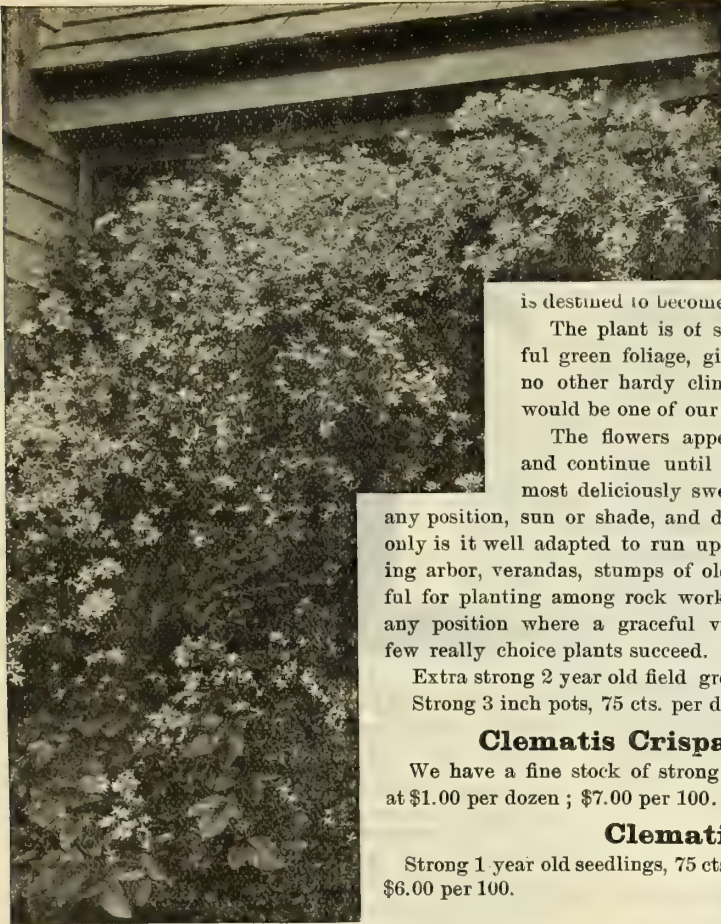

Princess Louise. Deep rosy pink, one of the best.
Princess Meletia. White, fringed.
Regulus. Crimson red.
Rosinante. Blush rose, very dwarf.
Tiber. Crimson brown, tipped yellow.
Veuve Clicquot. Brick red, edged yellow.
 75 cts. per doz.; \$5.00 per 100.

Cyperus Alternifolius Gracilis.

Cyperus Alternifolius Gracilis.

A pretty new variety of Cyperus with graceful narrow foliage, entirely distinct, certain to become popular. 2½ in. pots, 60 cts. per dozen; \$4.00 per 100.

CLEMATIS PANICULATA.

CLEMATIS.

Clematis Paniculata.

(Japanese Virgin's Bower.)

This handsome hardy climber, though introduced from Japan some years since, is still but little known, although one of the choicest and most satisfactory climbing flowering plants we know and of

is destined to become very popular.

The plant is of strong rapid growth with small dense cheerful green foliage, giving it a grace and elegance possessed by no other hardy climber, and even did it not flower at all, it would be one of our most desirable vines.

The flowers appear in the greatest profusion during August and continue until late in the fall, are of a white color and most deliciously sweet scented. The plant succeeds in almost any position, sun or shade, and does equally well in sandy or stiff soil. Not only is it well adapted to run up all kinds of supports, such as trellis, covering arbor, verandas, stumps of old trees, festooning, etc., but is just as useful for planting among rock work, sloping banks, covering graves, or in fact, any position where a graceful vine is desired and in positions where but few really choice plants succeed. We offer two sizes:

Extra strong 2 year old field grown plants, \$2.50 per doz.; \$20.00 per 100.

Strong 3 inch pots, 75 cts. per doz.; \$6.00 per 100.

Clematis Crispa. Clematis Coccinea.

We have a fine stock of strong 2 year old plants of the above two varieties at \$1.00 per dozen; \$7.00 per 100.

Clematis Flammula.

Strong 1 year old seedlings, 75 cts. per doz.; \$6.00 per 100.

New Red Clematis. Madame Edouard Andre.

An entirely distinct and most novel variety, and the nearest approach to a bright red ever sent out. The plant is a strong, vigorous grower, being a hybrid of the popular Jackmanni, which it resembles in freedom of bloom, strong vigorous growth and shape and size of flower. We offer good 3 inch pots, 40 cents each; \$4.00 per dozen.

Hardy Clematis.

Our stock this season is finer than ever. We offer only strong two year old plants, on own roots.

Duchess of Edinburgh. Very fine, pure double white.

Gipsy Queen. Rich dark velvety purple.

Henryi. Finest large single white.

Jackmanni. Large, rich velvet purple; a fine bloomer.

Jackmanni Alba. A fine large pure white.

John Gould Veitch. Lavender blue, flowers double.

Kermesina. A very bright purplish crimson.

Lady Caroline Neville. Blush white, very fine.

Lilacina. Very free flowering blue.

Mme. Van Houtte. Pure white; extra fine.

Miss Bateman. White with chocolate red anthers.

Mme. Baron Veillard. Light rose with lilac shadings.

Otto Froebel. Greyish white.

Sieboldi. Extra large, lavender.

The Gem. Fine blue.

\$3.75 per dozen; \$30.00 per 100.

CLEMATIS—MME. EDOUARD ANDRE.

Cycas Revoluta.—(SAGO PALM.)

We are now booking orders for dormant stems which are expected to arrive early in May; stems from 6 to 24 inches at 10 cents per pound.

We shall be pleased to give special quotations on lots of 500 or more pounds.

CHOICE NEW DAHLIAS.

The following collection embraces the finest of recent introductions:

New Cactus Dahlia, Constancy. A very pleasing variety, of beautiful form, regular and symmetrical; color a rich reddish orange shaded bronze, sometimes tipped white; a strong, vigorous grower and profuse bloomer.

Strong field roots, 35 cts. each.

New Cactus Dahlia, Grand Duke Alexis. One of the most unique Dahlias, as well as one of the grandest ever introduced, frequently measuring 18 inches in circumference; of beautiful, symmetrical form; color ivory white; the petals, which are tubular in form, being just sufficiently opened at their extremity to show a faint shade of blush or peach color, greatly enhancing the whole effect. A most admirable variety for cutting.

50 cts. each.

New Show Dahlia, Miss May Lomas. One of the grandest in the list; the plant is a strong, vigorous grower, and is constantly covered with large perfect shaped flowers. The form is entirely distinct, having immense shell-like petals of most exquisite waxy finish, while the color is pure white, delicately suffused, soft, rosy lavender—a most unusual shade.

Strong field roots, 35 cts. each.

CACTUS DAHLIA—MRS. PEART.

CYCAS REVOLUTA.

New Cactus Dahlia, Red and Black. A new and entirely distinct combination; deep wine red, heavily margined with deep black maroon; flowers of good size and fine form; petals regular and somewhat cup-shaped; the foliage is very dark green, edged purplish maroon, and beautifully serrated.

Strong field roots, 35 cts. each.

New Pompone Dahlia, Snow-clad. The finest pure snow-white Pompone Dahlia in cultivation. The flowers are of perfect form, always full to the centre, and a profuse bloomer.

Strong field roots, 35 cts. each.

New Cactus Dahlia, William Agnew.

The grandest red Cactus Dahlia ever produced. The flowers are of largest size, sometimes measuring more than 7 inches in diameter, and always full to the centre, of perfect form and exquisite quality and finish, while the color is of the richest dazzling red.

Strong field roots. 35 cts. each.

Cactus Dahlia, Mrs. Peart. This variety was introduced two years ago. It is a grand white variety, of purest tint, with true cactus-shaped flowers; one of the very best cut-flower varieties we know of.

Strong roots, 10 cts. each; \$1.25 per doz.; \$8.00 per 100.

Fancy Dahlia, Fern-Leaved Beauty.

A most beautiful variety introduced by us two years ago; entirely distinct from all others. The flowers are of medium size, with quilled or shell-like petals of a creamy white color, each petal being heavily bordered with dark crimson; its foliage is very finely cut, like that of a strong growing fern.

Strong roots, 10 cts. each; \$1.25 per doz.; \$8.00 per 100.

Our list of Novelties, both in Seeds and Plants, contains many valuable things for florists.

We call special attention to the new Cannas: Austria, Italia, Beaute Poitevine and other new sorts. Also to the New Dwarf Early Large Flowering Cosmos, "Dawn." For full descriptions, see the first sixteen pages of our Retail Catalogue.

DAHLIAS.

Collection of Cactus Varieties.

- Blanche Keith.** Rich yellow, of fine form.
Beauty of Arundel. Glowing crimson, tips of petals shaded rosy purple.
Cochineal. Brilliant crimson.
Countess of Pembroke. Soft lilac base of petal green.
F. W. Strandling. Orange scarlet, dwarf compact grower.
Formosissima Picta. Orange with bright scarlet stripes.
Honorio. A peculiar shade of amber.
Henry Patrick. Fine white.
Harry Freeman. Snow white.
John Bragg. Blackish maroon, very fine.
Juarez. Intense scarlet with twisted petals.
Kynerith. Brilliant vermilion shading lighter to base of petals.
Mrs. Hawkins. Sulphur yellow, tinted red.
Mrs. Glasse. Crimson maroon, shading to scarlet towards the center.
Marchioness of Bute. Pure white, tipped with rose.
Nymphæa. (Pink Water-Lily Dahlia). In color a clear distinct shrimp pink, shading slightly darker toward the outer petals, a color difficult to describe; its color and form have suggested the name Water-Lily Dahlia.
Panthea. Rich reddish salmon, peculiar and striking.
Prof. Baldwin. Bright orange scarlet.
Robert Maher. Fine rich golden yellow.
Zulu. Maroon shading black.

Strong field grown roots \$1.25 per doz.; \$8.00 per 100.

The collection of 20 varieties for \$1.75.

Collection of Pomponé or Lilliputian Varieties.

- Ariel.** Rich clear orange buff.
Crimson Beauty. Crimson, of good form.
Deutscher Turnergruss. Crimson scarlet, edged with white.
Dr. Schwebbs. Rich scarlet.
Deutsche Maedchenliebe. Lilac.
Eli Millard. White, shaded blush.
Guiding Star. Fine pure white.
J. E. Ohleus. Golden yellow, fine form.
Juliette. Yellow, shaded with orange.
Kleine Zarte. Dark crimson, shaded purple.
Kleine Domitea. Buff yellow, of good form, very fine.
Lurline. Canary yellow.
Lella. Reddish buff, tipped white.
Lambert Ritter. Yellow with light red stripe.
Mignon. Bright crimson scarlet.
Obergartner Schlicker. White, tipped violet.
Pursuit. Dark maroon.
Vivid. Orange scarlet.
W. C. Denzel. Rose, flamed pale yellow.
William Buchner. Lilac, tipped yellow.

Field grown roots. \$1.25 per doz.; \$8.00 per 100.

Collection of Show and Fancy Varieties.

- Arabella.** Yellow, tipped pink and bronze.
Ernst Kreibitz. White, tipped purple.
Fern Leaved Beauty. A most distinct and handsome variety with creamy white flowers, each petal being distinctly edged with crimson, foliage finely cut and very attractive.
Frank Smith. Crimson, tipped with white.
Marguerite. Finely formed, lilac pink.
Mrs. Stancombe. Bright canary yellow, tipped with fawn.
Nero. Crimson maroon.
Pluton. Fine rich yellow, of good form.
Queen of Yellows. Canary yellow.
Mme. Bruant. Fine pure white.
Wacht am Rhine. Lilac maroon.
White Bedder. Fine double white, of dwarf habit.
 Strong field grown roots. \$1.25 per doz.; \$8.00 per 100.

DAHLIA NYMPHÆA.

Collection of Choice Single Varieties.

- Ami Barillet.** Beautiful glowing scarlet with bronzy foliage, one of the finest for cutting, always comes perfect.
Blumenfalter. Rosy purple.
Bridal Wreath. Creamy white.
Edelweissfalter. Large white with yellow disc.
Empress. Pure white, yellow rayed centre.
Feuerfalter. Brilliant scarlet.
Gartenfalter. Magenta.
John Downie. Intense crimson, fine form.
John Cowan. Deep crimson, shaded maroon.
Kate. Orange maroon.
Kupferfalter. Coppery red.
Lucinda Chaure. Buff.
Maude. White, banded maroon.
Miss Louisa Pryor. Rich velvety crimson.
Miss Roberts. Fine light yellow.

Field grown roots. \$1.25 per doz.; \$8.00 per 100.

DRACENA SANDERIANA.

Dracæna Braziliensis.

A most useful variety, with broad bright green foliage, of rapid growth.

2 inch pots,	75 cents	per doz.,	\$6.00	per 100.
3 " " "	\$1.00	" " "	8.00	" "
4 " " "	2.00	" " "	15.00	" "

Dracæna Fragrans.

We have a fine lot of this useful variety.

2½ inch pots,	\$1.25	per dozen ;	\$10.00	per 100.
3 " " "	1.50	" " "	12.00	" "
4 " " "	2.50	" " "	20.00	" "
5 " " "	4.50	" " "	35.00	" "

Dracæna Ferrea.

Strong 2 inch pots. 75 cents per doz. ; \$6.00 per 100.

Dracæna Marginata.

Fine plants of this useful variety.

5 inch pots, 50 cents each.

Dracæna Terminalis.

2 inch pots,	\$1.00	per doz. ;	\$7.00	per 100.
3 " " "	1.25	" " "	10.00	" "

Dracæna Sanderiana.

A new and entirely distinct species and one of the finest novelties introduced for years. It has thick textured narrow leaves which are closely set on slender upright stems variegated with silvery white and green bands alternating and of various widths, the whole surface of the plant being covered with a silvery sheen of bloom. It is altogether different from anything heretofore known in the way of Dracænas. Good plants in 2½ inch pots, 50 cents each.

FERNs.

Scarce and Special Varieties.

Alsophila Australis.

A nice lot of this useful tree-fern.

2½ inch pots	\$1.00	per doz. ;	\$8.00	per 100.
3 " " "	1.25	" " "	10.00	" "
4 " " "	2.00	" " "	15.00	" "

Davallia Fijiensis Plumosa.

One of the prettiest of the Davallias ; especially fine for growing into specimen plants ; with dark green, gracefully arching fronds.

3 inch pots, \$1.50 per doz. ; \$12.00 per 100.

Davallia Fijiensis Major.

Similar to the above, but with heavier foliage.

3 inch pots, \$1.50 per doz. ; \$10 per 100.

Doryopteris Nobilis.

We have succeeded in growing a very fine lot of this beautiful variegated fern, which enables us to offer it at a much reduced price. We have fine 5 inch pots, 50 cts. each ; \$5.00 per doz.

Nephrolepis Cordata Compacta.

We consider this the most useful and desirable Nephrolepis yet introduced. It is of rapid growth, good color and very graceful.

3 inch pots, \$2.00 per doz.

Nephrolepis Davalleoides Multiceps.

A distinct and pretty form of N. Davalleoides, with narrow foliage and more finely divided segments.

3 inch pots, 30 cents each ; \$3.00 per doz.

Adiantum Farleyense.

A fine stock of this most beautiful of all the maiden-hair varieties, in excellent condition for growing on.

Strong 2 inch pots, \$2.00 per doz. ; \$15.00 per 100.

MICROLEPIA HIRTA CRISTATA.

DAVALLIA FIJIENSIS PLUMOSA.

GLOXINIA. We offer this season the finest Gloxinias, both as regards strain of variety and size of bulbs, that we have ever sent out. All are well matured, they are of the Crassifolia type of foliage, and are all erect flowering. The prices have been reduced to 50 cts. per doz.; \$4.00 per 100; \$30.00 per 1000.

Ficus Elastica.

(Rubber Plant.)

Good plants in 4 inch pots, 10 to 12 inches high; 35 cts. each.

" " " 6 " " 18 " 24 " " 75 " "

Three Fine Grasses.

Eulalia Japonica Zebrina.

Eulalia Japonica Variegata.

Eulalia Gracillima Univittata.

We have a large stock of these useful hardy ornamental grasses, and can furnish of liberal sizes at 75 cts., \$1.00, \$2.00 and \$3.00 per doz.; \$6.00, \$8.00, \$15.00 and \$20.00 per 100, according to size of plant. Extra large undivided two-year-old clumps, \$30.00 per 100.

Gaillardia Grandiflora.

This is undoubtedly one of the finest of hardy Perennials. The flowers are large, very numerous, produced on long stems, and excellent for cutting, and of the most gorgeous coloring. The centre dark-red brown, while the petals are variously marked with rings of scarlet crimson, orange and vermilion, and often a combination of all these colors in one flower. It delights in a rather poor, light soil, and blooms in the greatest profusion from June to November.

Strong one-year-old clumps, \$1.00 per doz.; \$8.00 per 100. 2 1/4 inch pots, that will flower freely this season, 60 cts. per doz.; \$4.00 per 100.

Genista Andreana.

A most desirable shrub either for planting in the open border or for growing in pots as a decorative spring-flowering plant, like the well-known Genista Fragrans and Racemosa that are grown so extensively for Easter decorations; but unlike those varieties, which are entirely yellow, the flowers of this new variety, which are nearly four times as large, are produced in large branches, the lower lip a bright yellow, the upper one a rich brownish crimson.

Strong plants, \$2.00 per doz.; \$15.00 per 100.

New Geraniums.

The five varieties described below are the cream of the introductions of the year. All of these varieties were exhibited the past season and attracted considerable attention, especially at the meeting of the Society of American Florists at Cleveland, Ohio, where they were admired more than any other novelty of the same class on exhibition.

Fleur Poitevine. A very distinct single flowering variety. Color brilliant rosy carmine, marbled and striped in pure white with an aureole of deep orange at the center. The plant is dwarf but robust and wonderfully free flowering.

J. Sallier. A vigorous growing and remarkably free flowering variety. Trusses very large and of perfect form, composed of single flowers entirely distinct in coloring from other existing varieties. Edges of petals carmine lake, the center is washed in tints of rose and bluish heliotrope color, the upper petals are veined carmine and marked with orange at the base.

J. Ricaud. A very free flowering double variety with enormous trusses on strong foot stalks. Color purplish crimson of a very intense shade, center very distinctly marked white, shading beautifully into the other color. Worthy of a place in every collection.

Madame Bruant. The best single variety of the year, A grand variety, totally distinct from any other in cultivation. White veined with carmine lake, florets regularly veined with bright solferino. The arrangement of color is exquisite, often intermingling and producing a striped effect. The trusses are large and beautifully formed. The plant is a strong healthy grower and very free flowering. Everything considered this is the most distinct and wonderfully colored variety ever sent out.

Madame Jaulin. Without question the very finest semi-double Geranium offered in many years. This is an entirely distinct color in the Bruant or bedding type. Very large florets form a truss of large size. Center of flower very delicate pink, bordered with pure white. For freshness and beauty this color is without parallel among out-door bedding varieties and is equally as valuable for pot culture.

25 cts. each. The set of 5 varieties for \$1.00

Hydrangea Paniculata Grandiflora.

We are again this season offering a fine lot of standard or tree-formed Hydrangeas; they are beautiful plants and will sell on sight. Stock limited

\$3.50 per dozen; \$25.00 per 100.

Also a fine lot of ordinary bush form, strong 2 years old plants 24 inches high, \$1.25 per doz.; \$10.00 per 100. 3 year old, 48 inches high, \$2.00 per doz.; \$15.00 per 100.

Hypericum Moserianum.

We take pleasure in calling attention to this beautiful plant, which has been universally admired and is acknowledged to be one of the very best herbaceous plants of recent introduction. The habit of the plant is free and graceful; it produces long, slender, much-branched stems, leafy to the base and all drooping toward the ends, apparently from the weight of the flowers and buds, although the flowers face so that none of their beauty is lost. It is marvelously free flowering, of large size, measuring from 2 to 2½ inches in diameter; in color a rich golden yellow, which is rendered still more effective by the numerous yellow stamens and crimson anthers, and blooms continuously the entire season. It is perfectly hardy, forming a bush about 3 feet high. Strong one year plants, \$1.00 per doz.; \$6.00 per 100.

Iris Kaempferi.

(Japanese Iris.)

The collection of 24 varieties described in our retail catalogue were selected for us by the most responsible house in Japan, and we are assured that the collection embraces the cream of the hundreds of varieties cultivated by the Japanese.

While the Iris succeeds in almost any soil and under any conditions, they delight in a rich deep wet position and should be abundantly supplied with manure and water.

15 cents each; \$1.50 per doz.; \$10.00 per 100.

The set of 24 varieties for \$3.00. Choice Mixed Varieties, \$1.00 per dozen; \$8.00 per 100.

Lotus Pelyorensis.

(Coral Gem.)

This charming plant seems to be unknown in this country, yet it is so well thought of abroad that a prominent horticultural journal color-plated it. *The Garden* says of it: "Its slender branching habit is most striking, and the silvery foliage even more so. Without its flowers it might also be described as a silvery Asparagus; but the bright coral-red flowers, measuring 2 inches in length, are really beautiful, greatly reminding one of the rare and beautiful Chianthus or Glory Pea, so difficult to grow, while this gem is of the easiest possible management. Its drooping habit also makes it useful for hanging-baskets." It is nearly hardy. 2 inch pots, 75 cts. per doz.; \$6.00 per 100.

MUSA ENSETE.

Musa Ensete.

(Abyssinian Banana.)

The leaves of this magnificent plant are long, broad and massive, of a beautiful green, with a broad crimson midrib; the plant grows luxuriantly from 8 to 12 feet high, producing a tropical effect.

Strong 5 inch pots, 50 cents each; \$5.00 per dozen.
" 3 " " 30 " " 3.00 " "

PALMS.

KENTIA BELMOREANA.

KENTIA FOSTERIANA.

We are the largest growers of Palms in this country. The additional 106,000 square feet of glass erected by us during the past two summers is being devoted entirely to this class of plants.

Our stock of young Palms especially, has never been so complete as at the present time, being clean, healthy and well grown, and we are certain will compare favorably with stock supplied by us in previous seasons.

We limit our list to the popular and desirable varieties for florist's use.

Cocos Weddeliana.

We have still in stock a limited lot of good plants in 3 inch pots. — 10 to 12 inches high.

\$3.00 per doz.; \$25.00 per 100.

Young plants in 2½ inch pots, ready about March 1st.
\$2.00 per doz.; \$15.00 per 100.

Cocos Plumosus.

Strong 3 inch pots, \$1.25 per dozen; \$10.00 per 100.

Chamaerops Excelsa.

2½ inch pots, 75 cents per dozen; \$6.00 per 100.

COCOS WEDDELIANA.

Areca Lutescens.

We have a fine stock of this graceful and useful variety.

The larger sizes of Latanias are not all perfect, but are good saleable plants that will give satisfaction.

Latania Borbonica Aurea.

This is the golden-leaved Latania, a rare and beautiful plant that is seldom offered. Our stock is limited.

Fine plants in 5 inch pots, showing character nicely, \$3.50 each.

Livistonia Rotundifolia.

One of the prettiest Palms in cultivation, especially suited for table decoration. The foliage is similar to that of a Latania Borbonica, but smaller and gracefully recurved, forming an almost globular plant.

2 inch pots, \$2.00 per doz.; \$15.00 per 100.
3 " " 3.00 " 25.00 "

Phoenix Rupicola.

We offer a fine lot of this choice variety, true to name.

2½ inch pots, \$1.25 per doz.; \$10.00 per 100.
3 " " 2.00 " 15.00 "

Seaforthia Elegans.

2½ inch pots, 75 cents per dozen; \$6.00 per 100.
3 " " \$1.00 " 8.00 "

Geonoma Gracillis.

Fine little plants in 2 inch pot of this graceful variety, \$1.25 per doz.; \$10.00 per 100.

Pandanus Utilis.

We have in stock at present about 35,000 of this useful plant, which is always scarce, large plants having been almost unprocurable during the past three or four years.

We offer—

2½ in. pots, 75 cts. per doz.; \$6.00 per 100; \$50.00 per 1000.
3 " " \$1.25 " 10.00 " 90.00 "

See what we say about measurements of Palms, etc., at top of page 22.

PANDANUS UTILIS.

A "Hatful" of Dreer's Double Petunias, reproduced from a photograph.

Dreer's Double Petunias.

Our strain of double Petunias is too well known to require special description. We are now offering fine, healthy, strong plants from three inch pots, which are in the most vigorous condition, free from rust and disease, and which will furnish a large number of cuttings in a short time. The set is composed of fifteen of the finest double fringed varieties of such colors as are especially suited for the retail trade.

\$1.00 per doz.; \$8.00 per 100. The set of fifteen varieties for \$1.25.

Hardy Garden Pinks.

New Hardy Pink, Souvenir de Sale.

An entirely new shade in hardy Pinks, being a delicate soft rosy pink with exceptionally large flowers, which are beautifully formed, very double and exceedingly useful for cutting and one of the freest flowering yet raised. A grand acquisition and a fine companion to that most useful white variety "Her Majesty." It was awarded a first class certificate by the National Pink Society in London.

2 inch pots, 15 cts. each; \$1.50 per doz.

Her Majesty.

This variety is a grand improvement on the popular variety known as "Snow" or "Mrs. Sinkins," to which it is superior in size of flower and freedom of bloom. The flowers, which are of large size, similar to a Carnation, and of the purest white color and very fragrant, are borne on stout, erect stems, 12 inches long. It is perfectly hardy, and will winter in the open border without protection; or may be grown in cold frames for early forcing.

Very strong one year old clumps, \$1.00 per dozen; \$6.00 per 100.

Scotch Pinks.

Earl of Carlisle. White, laced crimson.

Juliette. White, laced crimson.

Laura Wilmer. White, purplish maroon centre.

Prince Arthur. Crimson centre, blush lacing.

Snow (Mrs. Sinkins). Large pure white, very fragrant.

Clumps one year old, \$1.00 per doz.; \$8.00 per 100.

Pelargonium Dorothy.

One of the finest Pelargoniums that has yet come to our notice. An extremely free flowering variety, commencing to flower among the very earliest sorts, and continuing right through the season. In color it is very attractive, the ground color being a soft rosy salmon, with dark maroon blotches on the upper petals, and very richly shaded with plum color around the throat; the petals are all very prettily fringed, giving a light, elegant appearance to the flower. 30 cts. each; \$3.00 per doz.

PELARGONIUM "DOROTHY."

Rhododendrons.

The varieties we offer are all of the hardiest kinds, such as from experience are known to succeed in our climate. We offer three sizes, and all are set with buds. Ready March 15th.

First size, 18 to 24 inches high, 10 to 15 buds,
\$1.25 each; \$12.00 per doz.; \$100.00 per 100.
Second size, 15 to 18 inches high, 8 to 12 buds,
\$1.00 each; \$10.00 per doz.; \$75.00 per 100.
Third size, 15 inches high, 6 to 10 buds,
75 cts. each; \$8.00 per doz.; \$60.00 per 100.

New Double Rudbeckia, "Golden Glow."

A glorious new plant, and one that will find a place in every garden here and abroad; of fine habit, vigorous growth, with early, continuous and immense blooming qualities; it will be found excellent also for cut-flower purposes, inasmuch as the stems are long and often carry a dozen flowers furnished with most beautiful foliage. A large vase filled with these flowers is a beautiful sight. Gardening says of it:

"In this month's *Horticultural Trade Journal* we read: 'A large double-flowering Golden Yellow Rudbeckia will be a leading plant novelty next year.' We are glad of it, for it is a good thing, and more elegant and beautiful than the double-flowered sunflower (*Helianthus Multiflorus*, fl. pl.). We got a little plant of it last winter, and in the spring planted it out in the garden in good soil. It is now 6 feet high, much branched, the branches inclining upwards and in bloom."

3 in. pots, \$1.25 per doz.; \$8.00 per 100.

New Crimson Spirea.

Anthony Waterer.

A valuable and remarkable new shrub. This is one of those exceptional novelties that occur only at rare intervals, adding richness and beauty to our garden-flora. It outshines all Spireas in brilliancy of color, being of a bright crimson, of dwarfer and denser growth, and a profuse and continuous bloomer, being in bloom during the entire summer and fall. It makes an admirable pot plant as well, and will no doubt become a standard plant for Easter decoration. Strong one-year old plants, \$1.50 per doz.; \$12.00 per 100.

Tritoma Grandiflora.

(Flame Flower or Red-Hot Poker.)

A splendid summer and autumn flowering plant, with stately flower scapes and magnificent terminal dense spikes of rich orange-red tubular flowers, known from its glowing colors as the "Red-Hot Poker Plant;" effective among shrubbery.

	Per doz.	Per 100.
Extra strong.	\$1 50	\$12 00
Medium size.	1 25	10 00

Viburnum Plicatum.

We have a fine stock of this beautiful double flowering Japan Snowball, strong bushy plants, of good form, 24 to 30 inches high, \$3.50 per doz.; \$25.00 per 100.

LUXONNE VIOLET.

NEW SINGLE VIOLETS.

The varieties offered below are great improvements over the old sorts, which were practically of little use except at such seasons when double flowering sorts were not to be had, while in these new sorts the flowers are of such immense size that they are fully as desirable as the finest doubles, and for freedom of bloom they excel anything heretofore offered.

Admiral Avellan. A French variety with entirely distinct bright reddish flowers, different from anything yet introduced; the flowers, which are produced very freely, are of large size and fragrant.

California. This was sent out as the finest single variety in cultivation. The flowers are very large, borne on long stout stems, which makes it especially valuable as a cut flower; intensely fragrant and of a clear violet purple color that does not fade out.

Luxonne. This variety is of French origin, and is without doubt the finest single violet grown. It is of the same size as the California, but appears nearly double its size, as the petals all open out flat, and has the advantage of flowering continuously from early in September until April. It is of a beautiful rich but soft violet purple color, with strong stout stems from 9 to 12 inches long, and very fragrant.

Princess of Wales. Another grand variety, not quite as large as Luxonne, and a shade lighter in color; intensely fragrant.

2½ in. pots (ready March 1), 75 cts. per doz.; \$5.00 per 100.

Roses.—New Varieties for 1897.

New Forcing Rose, SOUVENIR DU PRESIDENT CARNOT.

This grand new rose has taken more medals and certificates of merit than any other sort. It is an ideal rose for the florist, combining strong vigorous growth with long stemmed large flowers of great substance. It is equally good as a garden rose. Color light pink, edge of petals flesh color.

Our stock has been propagated from well ripened flowering wood and is not weakened by over-propagation, therefore we can guarantee satisfaction as to quality of the plants.

Strong 2½-inch pots, \$3.00 per doz.; \$15.00 per 100; \$125 per 1000.

New Hybrid Tea, AUGUSTE METRAL.

Buds crimson red, large full flowers, varying from purple to crimson red; fragrant and very beautiful. 2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

New Tea, AUGUST COMTE.

Color rose-red, outside petals carmine-red, with broad border of a deeper color, and the center salmon-colored rose-ochre. 2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

New Hybrid Tea, MARJORIE.

This is a charming variety, of robust growth, medium size and exquisite form. Color white, suffused with salmon-pink; flowers full and freely produced throughout the season. An excellent rose, both for garden decoration and exhibition purposes. For pot culture and forcing purposes, this is most valuable. 2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

New Tea—SOUV. DE CATHERINE GUILLOT.

Large flowers, varying from capucine-carmine to Indian-yellow; very fragrant. 2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

New Hybrid Tea—ANTOINE RIVOIRE.

Camellia-formed flowers of clear salmon-rose, with dark yellow at back, edged carmine; superb. 2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

New Hardy Yellow Climbing Rose—YELLOW RAMBLER (Aglaiæ).

This new Hybrid Noisette produces its flowers in the same manner as the popular Crimson Rambler—that is, in large pyramidal-shaped trusses, frequently being from fifty to one hundred flowers in a truss. In color it is a decided yellow, with moderate-sized cup-shaped nearly full flowers, which are sweetly scented. Its habit of growth is very strong, frequently making shoots of eight to ten feet in one season. 2½ inch pots, 40 cts. each; \$4.25 per doz.; \$30.00 per 100. (Ready March 1st).

Hardy Tea Rose—MAMAN COCHET.

We consider this the best of all the Tea Roses for open air culture; it is of remarkably vigorous growth, free flowering and has stood out of doors without protection in an exposed position near Philadelphia the past two winters. In color it is of a deep rose pink, the inner side of petals silvery rose and are borne on long stout stems, very double and of fine form.

We offer a limited stock of very strong field grown plants.

\$2.50 per doz.; \$18.00 per 100.

2½ inch pots, \$4.00 per 100.

ROSE SOUVENIR DU PRESIDENT CARNOT.

New Polyantha Rose, MOSELLA, or YELLOW CLOTHILDE SOUPERT.

A fitting companion to Clothilde Soupert, and much superior to that variety in shape of buds and the profusion of bloom. The habit of growth is the same, but the flowers of Mosella are white at the edge and chrome yellow in the centre. It has stood 10 degrees below zero in Germany. Awarded first-class certificate by Pennsylvania Horticultural Society. Every florist should have this new rose.

We are sending out good strong 2½ inch pots, which if potted up at once will make good four inch pot stock for retailing in spring.

Price \$1.25 per doz.; \$8.00 per 100; \$70.00 per 1000.

New Climbing Hybrid Rose, CARMINE PILLAR.

Splendid new single rose with flowers four to five inches across, of the brightest rosy carmine, and produced so abundantly that the last year's shoots—some ten to twelve feet in length of growth—were covered from base to top with bunches of flowers from each eye. 2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

New Climbing Noisette Rose, ALLISTER STELLA GRAY.

Deep yellow, resembling W. A. Richardson in color, but much smaller in size; flowers in clusters, early and late. 2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

New White Hybrid Perpetual, MARGARET DICKSON.

This is undoubtedly the finest Hybrid Perpetual yet introduced. We offer a fine lot of two year old plants on own roots. \$2.00 per doz.; \$15.00 per 100.

CRIMSON RAMBLER.

Strong field grown plants, suitable for 5 and 6 inch pots, stock limited, \$3.50 per dozen; \$15.00 per 100.

2½ inch pots, \$4.50 per 100.

Polyantha Rose—PINK SOUPERT.

A nice lot of field-grown plants of this pink seedling of Clothilde Soupert. \$2.00 per dozen; \$15.00 per 100.

NEW HYBRID WICHURIANA ROSES.

These pretty hybrids of this most useful Rose are now offered for the first time. They are quite hardy and need no protection whatever in winter, and from their trailing habit are admirably adapted for covering rockwork or bare spaces as well as planting in the border. They are of very free growth, with foliage of a fine deep green, which lasts until well on in the winter. The flowers are produced in immense quantities, and last a long time in perfection. Altogether very desirable.

Triumph. This variety is of free growth, with fine foliage, double white flowers produced in clusters, sweet scented.

South Orange Perfection. Dwarf trailing habit, double flowers, bluish pink at tips, changing to white.

Universal Favorite. Soft light pink flower, very fragrant.

Pink Roamer. Strong grower, with single bright rich pink flowers with almost white centre, orange-red stamens.

Good young plants, 2 inch pots (ready March 1st), \$3.50 per doz. ; \$25.00 per 100.

FERTILIZERS.

DREER'S AMMONIATED BONE PHOSPHATE. A valuable fertilizer for the garden and farm, made from pure materials, and certain to give satisfactory results. Per sack of 200 lbs., \$3.00; per ton, \$27.00.

CLAY'S FERTILIZER. Highly recommended for all purposes in the vegetable, fruit and flower garden, specially adapted in rose forcing. In sacks as imported, $\frac{1}{2}$ cwt. \$1.75; $\frac{1}{4}$ cwt. \$3.25; 1 cwt., (112 lbs.), \$6.00.

PURE GROUND BONE. Excellent for restoring and quickening grass plots, gardens, etc. Apply 400 to 600 lbs. to the acre. Sack of 200 lbs. \$3.25; per ton, \$29.00.

PURE BONE MEAL. Better than Ground Bone for mixing with potting soil, as it is much finer and in better condition for giving immediate effect. 200 lb. sack, \$3.25; per ton, \$29.00.

BONE FLOUR. Ground perfectly fine; an excellent fertilizer for pot plants or beds where an immediate effect is wanted. 100 lbs. \$2.50; bag or bbl., 200 lbs. \$4.00; per ton, \$36.00.

NITRATE OF SODA. A fertilizer for all crops, and the only means by which the largest per cent. of Nitrogen can be applied to soils. 50 lbs., \$1.75; 100 lbs., \$3.25; 200 lbs., \$6.00; ton, \$45.00.

PULVERIZED SHEEP MANURE. Excellent for mixing with potting soil. 100 lb. sack, \$2.00; ton, \$35.00.

LOBOS PERUVIAN GUANO. Four per cent. ammonia. Per bag (about 167 lbs.) \$3.50; per ton, \$40.00.

INSECTICIDES.

ANT EXTERMINATOR. A most effectual preparation for the destruction of Ants in lawns and pleasure grounds. Directions for use on each package. Put up in three sizes, 25 ct., 50 ct., \$1.00.

BORDEAUX MIXTURE. (*Liquid.*) This mixture is a scientific preparation and combined in a manner heretofore unknown, as by simply adding water and stirring, it is ready for use. 1 gal. \$1.00, will make 1 bbl. liquid; 1 qt. 40 cts., will make 15 gals. liquid.

FLOWERS OF SULPHUR. A preventive and cure for Mildew. Per lb., 6 cents; 10 lbs. 50 cts.; per 100 lbs. \$3.00.

FIR TREE OIL. Per pint, 75 cts.; per quart, \$1.25; per $\frac{1}{2}$ gallon, \$2.25; per gallon, \$4.50.

FOSTITE. The great Mildew remedy. 5 lbs., 50 cts.; 25 lbs. \$2.00; 50 lbs. \$3.50; 100 lbs. \$6.50.

GRAPE DUST. Preparation for destroying Mildew, Mold or Rust Mites, in greenhouses or the open air. 5 lbs. 30 cts.

GISHURST COMPOUND. For Green Fly, Thrip, Mealy Bug and Scale. Per lb. box, 40 cts.; 3 lb. box, 90 cts.

HELLEBORE. Thoroughly effective. Per lb. 20 cts.

"Planet Jr." Horse Hoe and Cultivator. No. 8.

Price, \$7.50.

"Planet Jr." Twelve-Tooth Harrow, Cultivator and Pulverizer.

Price, complete, \$7.50; with wheel, \$6.15; plain, \$4.90.

**The "PLANET JR." No. 4
Combined Hill Dropping
Seeder and Single
Wheel Hoe, Culti-
vator, Rake
and Plow.**

Holds three pints, and drops distances of 6, 9, 12, 18 and 36 inches. Will handle the smallest paper of seed perfectly and to the last grain. The drill is quickly detached and the tool frame substituted. It then becomes the most admirable Single Wheel Hoe of the "Planet Jr." family. Has a garden plow, two new style hoes, three cultivating rakes, 6, 9, 12 inches, and a practical leaf guard. Price, complete, \$10.00. As a drill, \$7.00.

**The "PLANET JR." No. 5 Hill Dropping
Seeder.**

The new No. 5 "Planet Jr." drops at 5, 6, 8, 10, 12, 16, 24 and 48 inches apart, and also in a continuous row. It drops without injury, can be changed from hill to drill or from one distance to another very quickly, and without any changing of bolts. Index with brass screw regulator and cut-off is at the top of the handle.

It is very light running, and is a model of simplicity, strength and durability. Its large capacity will suit all large growers and yet it works so perfectly that it will sow a single paper of seed or drop it in hills accurately, to the very last grain.

In a word, no seeder has ever been made that compares with this newly perfected No. 5 "Planet Jr."—the 1897 surprise.

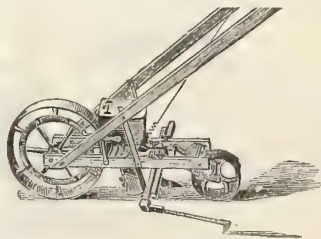

Price, \$12.00.

The "PLANET JR." No. 2 Drill.

It has an adjustable opening plow. No hoeing attachments. This Drill can readily be kept perfect in a straight line, and sows with ease and accuracy any and all vegetable and flower seeds, covering them just the depth required. The cleaner in front of the plow prevents trash from collecting on the plow. Holds $2\frac{1}{2}$ quarts. \$6.50 boxed.

The "Model" Drill.

The Index or Indicator is plain, convenient and reliable. It is placed in open sight, and can be quickly adjusted to the slightest variation. The flow of seed can be instantly stopped by a swinging cut-off. The marker is simple. The main wheel is large and of sufficient width to prevent its sinking into soft earth. \$6.00.

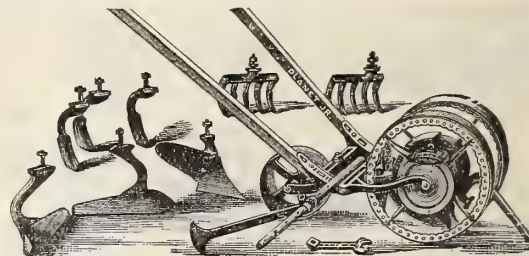

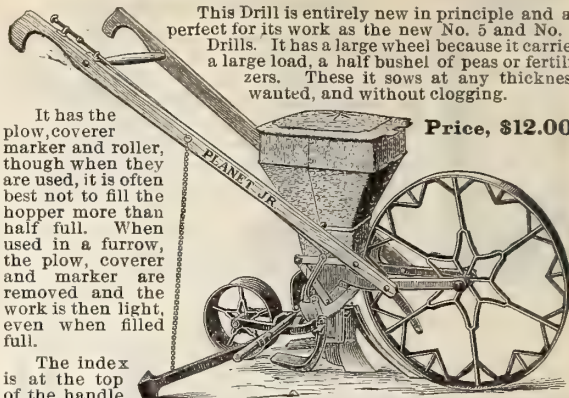

The "PLANET JR." Fertilizer and Pea Drill.

This Drill is entirely new in principle and as perfect for its work as the new No. 5 and No. 4 Drills. It has a large wheel because it carries a large load, a half bushel of peas or fertilizers. These it sows at any thickness wanted, and without clogging.

Price, \$12.00.

It has the plow, coverer marker and roller, though when they are used, it is often best not to fill the hopper more than half full. When used in a furrow, the plow, coverer and marker are removed and the work is then light, even when filled full.

The index is at the top of the handle, and by means of an accurate screw and pointer, the exact amount wanted may be sown, and the feed rod is used also to throw the tool in or out of gear. Is simple, having no gearing, chains, brushes, stirrers or complications of any kind.

**The "Planet Jr." Combined Drill, Wheel
Hoe, Cultivator, Rake and Plow.**

This is unquestionably the most popular and perfect machine of its kind made. As a seed drill it is the same as the No. 1, except in size; it holds one quart. Taken as a whole, this combined tool is the nearest approach to perfection for the uses of a gardener that can well be devised. \$9.00

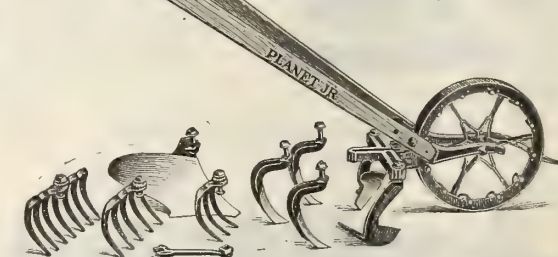

**Cahoon
Broadcast Seed Sower.**

Will sow any kind of grain or grass. \$4.00.

**The "PLANET JR." No. 15
Single Wheel Hoe Culti-
vator, Rake and Plow.**

This new Wheel Hoe has a high wheel with broad face, and a full set of tools, of hill new design. It has the advantage of being convertible into a hill dropping and row seeder, by buying the seeder attachment. Price, \$4.00.

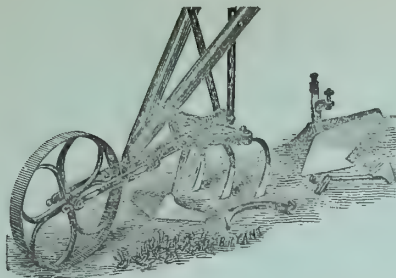

The tools are: garden plow, a pair of shield hoes, a set of three hoes cutting $3\frac{1}{2}$, 7 and 10 inches wide, respectively. Complete, \$6.00.

Is sold without rakes and leaf guard. Price, \$5.00. Also plain, having only one pair of hoes and one pair of rakes. Price, \$4.00.

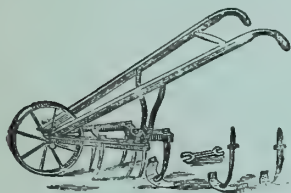

The seeder attachment is quickly exchangeable for the wheel hoe frame; it is identical with the "Planet Jr." Hill Dropping Seeder No. 4. Price, \$4.50.

HAND CULTIVATORS.

Gem Single Wheel Hoe and Cultivator.

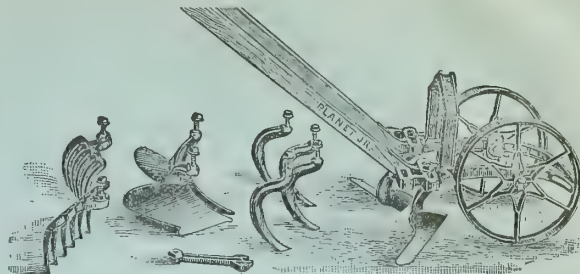

Five steel teeth, two scuffle hoes, and two plows, one right and the other left hand. The hoes, etc., can be set in any position. \$3.50.

Lee's Iron Frame Hand Wheel Hoe.

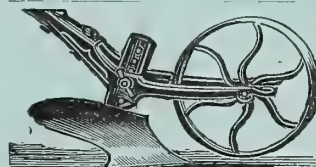

Light, simple, strong and easily worked. The hoes are of different widths. \$5.00.

The "Planet Jr." Double Wheel Hoe.

The "Planet Jr." Double Wheel Hoe will straddle plants eighteen inches high, and finish rows from six to eighteen inches apart at one passage. All the tools shown in the cut go with the machine for the price. The wheels are adjustable to make the work shallow or deep. Price \$6.00.

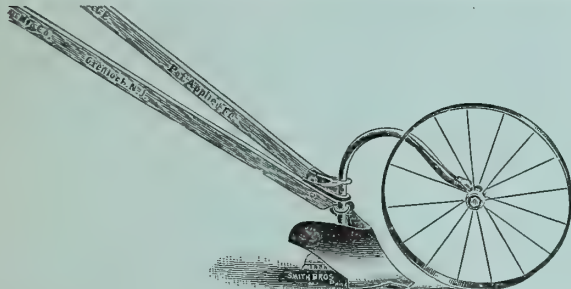

To accommodate those who have little work but hoeing, we offer the above machine, with hoes only, under the name of "Planet Jr." Plain Double Wheel Hoe, at \$3.50. The other parts can be added at any time and will be found to fit.

The "Fire Fly" Wheel Garden Hoe.

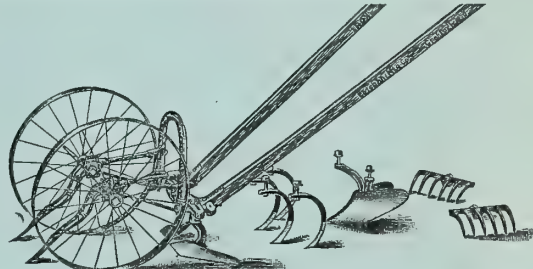

An indispensable Tool for the Garden. Can be set shallow or deep, \$2 00.

The New Iron Age High Wheel Tools are perfect machines; their practicability can be seen at a glance. They represent the latest ideas in bicycle construction: steel wheels, and tubular frame, exceedingly light, and also very strong.

New Iron Age Hand Plow.

A featherweight tool of wonderful power, the large wheel makes the turning of a furrow a pleasure. \$2.50.

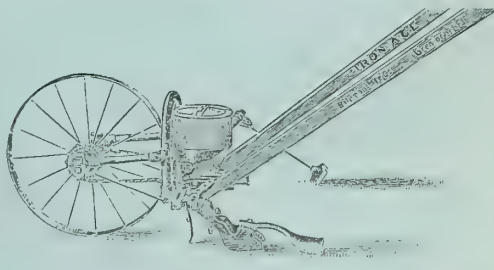

New Iron Age Double Wheel Hoe.

One of the lightest tools made, and will do the work of cultivating with the greatest ease. \$6.00.

New Iron Age Single Wheel Hoe.

Simple, strong and very light in weight; a pleasure to use it, so little labor. \$4.50.

New Iron Age Double Wheel Hoe.

Shown as a Seed Drill. Combined Cultivator and Seed Drill, \$9.00; Seed Drill, \$6.50. The Seed Drill attachment is simple, easily attached, and does the work.

SUNDRIES.

Grafting Wax, first quality, in bars, with directions for using. $\frac{1}{4}$ lb. 10 cts.; $\frac{1}{2}$ lb. 15 cts.; 1 lb. 25 cts.; postpaid, 45 cts.

Universal Glass Cutter.

Will never lose the point. It works entirely different from all others, having a diamond in one corner and a wheel in the other, thus giving a sure cut. The cocoa handle cutter has diamond nearly twice the size of the ebony handle.

Cocoa handle, \$4.00; Ebony handle, \$2.75.

Steel wheel cutters, 15 cts. each; \$1.50 per doz.

THE VAN REYPER PERFECT GLAZIERS' POINTS.

No rights or lefts.
Price per box of
1000, 60c.; by mail, 75c.; in
lots of 5000, by express, 55c.
per 1000.

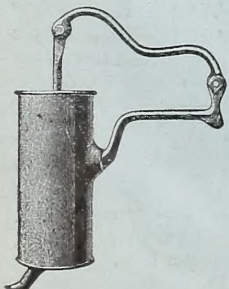

MASTICA.

For glazing green-houses, new or old. Elastic, adhesive, easy to apply. Every florist has experienced difficulty in getting putty that is satisfactory for any length of time. The fact is, putty is not adapted to stand the severe and varied tests to which it is subjected on a green-house. Mastica being elastic, is not affected by the expansion and contraction, and retains this property for years.

¼ gal. 35 cts.; ½ gal. 60 cts.;
1 gal. \$1.00.

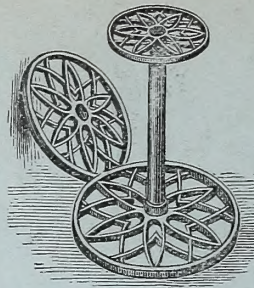

One gallon will cover about 300 running feet (one side).

Mastica Glazing Machines (see cut) \$1.00 each.

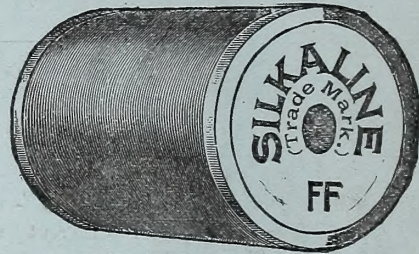

Dreer's Iron Plant Stands.

These plant stands are made of cast iron in five sizes, and can be furnished in three styles, plain black, galvanized, and bronzed. They will be found very useful for elevating plants in the back rows of greenhouses, conservatories, etc. 10% discount on 5 stands and over.
